WORK EXPERIENCE

PT Wahana Ottomitra Multiartha Tbk (WOM Finance)

IT Staff — Apr 2022 – Present

- Executed OS installation, configuration, and workstation deployment across company endpoints.
- Performed hardware, software, OS, and network connectivity troubleshooting to maintain system uptime.
- Monitored system performance and identified abnormal system behavior/anomalies.
- Assisted in security patch management, updates, and endpoint security hardening.
- Delivered end-user technical support and resolved IT infrastructure issues efficiently.

PT Lion Express (Lion Parcel)

Point of Sale Staff — Oct 2021 – Mar 2022

- Managed daily logistics transactions via POS system, maintaining 100% data accuracy.
- Handled customer service and operational logistics support for package dispatch.

PROJECT

Hands-on Cyber Security Labs (TryHackMe & BTLO) — 2024 - 2026

- Analyzed Sysmon logs, authentication events, network traffic, and endpoint artifacts.
- Performed memory forensics using Volatility, email phishing analysis, and malware inspection.

SOC Incident Investigation: Web Shell & Network Traffic Analysis — 2026

- Investigated network PCAP files and web shell artifacts to identify suspicious activities.
- Analyzed traffic logs, extracted IOCs, and authored comprehensive incident investigation reports.

Web Application Penetration Testing Project — 2023

- Conducted web application vulnerability assessments based on OWASP Top 10 using Burp Suite and Nmap.
- Documented technical findings and proposed remediation strategies.

SKILLS

- Security Operations & SIEM: Security Monitoring, Log Analysis, Threat Detection, SIEM Concepts (Splunk, ELK), Incident Response, Event Analysis
- Security Tools: Wireshark, Nmap, Burp Suite, Sysmon, Volatility, YARA, Metasploit
- Cybersecurity Concepts: Vulnerability Assessment, OWASP Top 10, Network & Endpoint Security, OSINT
- Systems & Networking: Windows & Linux Admin, TCP/IP, DNS, HTTP/HTTPS, PowerShell, Troubleshooting

Certifications & Training

- eLearnSecurity Junior Penetration Tester (eJPT) – INE Security (2023)
- Red Team Cybersecurity Analyst – Studi DevSecOps (2023)
- Cyber Security Engineer #6 – Merdeka Siber Academy (2024)
- Web Fundamentals Learning Path – TryHackMe (2024)

EDUCATION

Universitas Universal

Bachelor of Computer Science (S.Kom.), Informatics Engineering — 2021
